## Chairman's message

**Chandmal Kumawat**  
Chairman

23 Years! We have completed 49 publications – mentioning this as a fact gives us enormous delight. We are now on our **golden jubilee publication, our 50<sup>th</sup>**! Founded in 1999, began our humble journey as a publishing house and we now look at the coming decades with a much stronger conviction. We are proud to release another book from our Jewels of India series, which will highlight the most inspiring and motivational success stories of the Indo-American diaspora and thus join hands with the American celebration of #AzadiKaAmritMahotsav – Indian government's initiative to commemorate India's 75<sup>th</sup> Independence Day.

Over these past years, we were fortunate to cover those super personalities, who believed in a higher vision, inspired us to be ambitious, pushed us to achieve those ambitions and disciplined us in setting new benchmarks in publishing.

Our golden jubilee publication, *Jewels of India: Leading Indo-American Personalities*, is the second edition; the first was released in 2013. This book is adorned with inspirational stories of people who took courageous and brave decisions to come out of hardships and lead a successful life. It will be officially released on **28 January 2023** to mark #AzadiKaAmritMahotsav. For we believe if Kamala Harris can become the Vice-President of the USA, a leader of international likeability, there can surely be many other Indians with the right motivation, right inspiration, right qualification to emerge just as triumphant if not more.

The time has come for India to become the *vishwa guru* once again and emerge as the hub of knowledge, innovation and inspiration. It won't be long before we will call our country the *sona ki chiriya* once again! Today, as the world watches India move into its most defining phase of growth, it is our responsibility towards the nation, to honor those who have dominated the world stage with their success. I believe that our responsibility to give back to the society which makes us what we are and our ability to contribute wherever we operate will define our future and hold us together as Indian citizens.

We, hereby, invite you to be a part of our initiative that brings together the largest democracy in the world – India, and the oldest democracy – the USA, and once more underscores our commitment to highlight the indomitable Indian spirit and courage to carry on regardless of any odds.
